EXECUTIVE SUMMARY

Odernix Nigeria Limited is an indigenous Nigerian company providing integrated engineering, infrastructure, oil and gas support services, technical procurement, project coordination, and development support solutions across Nigeria.

The company operates as a core engineering and infrastructure platform with strategic interests in energy and real estate through its operating arms, **Odernix Energy Limited** and **Odernix Homes Limited**.

Since incorporation in December 2016, Odernix Nigeria Limited has built practical project experience across civil infrastructure, roads and culverts, institutional facility development, rehabilitation and renovation works, borehole projects, renewable energy deployment, and oil and gas-related field support.

Odernix Nigeria Limited is an **ISO**

9001:2015 Certified Company, reflecting its commitment to quality management, structured service delivery, continuous improvement, client satisfaction, and compliance with applicable project, statutory, and regulatory requirements.

The company is positioned to serve government agencies, public institutions, private organizations, oil and gas contractors, infrastructure developers, communities, OEM partners, and commercial stakeholders requiring dependable project execution and technical support.

Odernix Nigeria Limited combines local market knowledge, field execution capacity, technical procurement capability, stakeholder coordination, quality management discipline, and project delivery experience to support infrastructure and development projects across Nigeria.

Corporate Identity

Company Name: Odernix Nigeria Limited

Registration Number: RC 1382295

Date of Incorporation: December 2016

Country of Incorporation: Nigeria

ISO Certification: ISO 9001:2015 Certified Company

Corporate Classification: Engineering, Infrastructure, Oil and Gas Support, Technical Procurement, Energy, Real Estate, and Project Solutions Company

Corporate Tagline:

Integrated Engineering, Infrastructure & Project Solutions

Corporate Overview

Odernix Nigeria Limited was established to provide practical and reliable project solutions across engineering, infrastructure, procurement, energy, oil and gas support, and development-related sectors.

The company supports clients by providing civil works execution, infrastructure development support, technical supply, field operations, project coordination, logistics support, equipment coordination, manpower coordination, and institutional project support.

Odernix Nigeria Limited is structured to participate in projects as a direct contractor, subcontracted support provider, technical procurement partner, local execution partner, project coordinator, or sector development partner.

As an ISO 9001:2015 Certified Company, Odernix Nigeria Limited applies quality management principles that support disciplined operations, client-focused delivery, process improvement, and compliance with applicable requirements.

The company's operations are driven by quality, reliability, professionalism, accountability, stakeholder confidence, and long-term value creation.

Vision

To become a trusted Nigerian engineering, infrastructure, and project solutions company recognized for quality delivery, technical reliability, sustainable solutions, and meaningful contribution to national development.

Mission

To provide dependable engineering, infrastructure, oil and gas support, technical procurement, energy, real estate, and project delivery services that meet client objectives, support institutional development, improve communities, and create long-term value.

Core Values

- **Integrity**

We conduct business with honesty, transparency, accountability, and respect for professional and contractual obligations.

- **Quality**

We are committed to delivering work that meets required standards, client expectations, quality management principles, and practical performance needs.

- **Reliability**

We respond to project demands with discipline, consistency, and commitment to execution.

- **Innovation**

We apply practical innovation, improved delivery methods, and relevant technologies to solve project challenges.

- **Sustainability**

We support solutions that promote long-term value, efficient resource use, and responsible development.

- **Partnership**

We work collaboratively with clients, contractors, communities, consultants, OEM partners, suppliers, regulators, and institutional stakeholders.

Board of Directors

Odernix Nigeria Limited is governed by a Board of Directors responsible for strategic oversight, corporate governance, policy direction, and long-term business growth.

Members of the Board of Directors

1. **Engr. Odera Udutchay — Chairman/CEO**
2. **Barr. Chukwuemeka Udutchay, LL.B**
3. **Mrs. Adachukwu Nwosu, MBA**
4. **Engr. Sochima Egoigwe, PhD**
5. **Engr. Kingsley Okosisi, B.Eng**

The Chairman/Chief Executive Officer provides executive leadership, corporate strategy, business growth direction, partnership development, and overall management supervision.

The company's internal operations are supported by three key functional departments: **Business Development, Finance & Administration, and Project Operations**. These departments coordinate client relations, proposals, partnerships, accounts, documentation, compliance support, logistics, reporting, site support, and project execution.

The company operates through three main arms: the Engineering & Infrastructure Division, Odernix Energy Limited, and Odernix Homes Limited. The Engineering & Infrastructure Division serves as the core project delivery arm, while Odernix Energy Limited handles energy and power-related opportunities, and Odernix Homes Limited supports real estate and property development activities.

CORE BUSINESS AREAS

Odernix Nigeria Limited provides services across the following core business areas:

- Engineering and infrastructure solutions
- Civil works and construction support
- Oil and gas support services
- Technical procurement and material supply
- Project coordination and field operations
- Facility rehabilitation and renovation
- Water infrastructure development
- Institutional and public sector project support
- Energy and power solutions through Odernix Energy Limited
- Real estate and property development through Odernix Homes Limited

ENGINEERING & INFRASTRUCTURE DIVISION

The Engineering & Infrastructure Division is the core technical and project delivery arm of Odernix Nigeria Limited.

This division supports civil engineering works, public infrastructure projects, institutional developments, construction support, facility rehabilitation, renovation works, water infrastructure, technical procurement, and field operations.

Key Service Areas

- Road construction support
- Culvert construction
- Drainage infrastructure
- Building construction support

- Institutional infrastructure works
- Facility rehabilitation
- Renovation and upgrade works
- Site preparation
- Civil works execution
- Project supervision support
- Material supply and coordination
- Equipment coordination
- Field operations support

The division is positioned to serve government agencies, public institutions, contractors, developers, communities, and private sector clients requiring reliable engineering and infrastructure support.

OIL & GAS SUPPORT SERVICES

Odernix Nigeria Limited provides oil and gas support services to clients, principal contractors, project owners, operators, and field stakeholders requiring reliable execution support within oil and gas-related project environments.

The company's oil and gas support services are designed to strengthen field operations through civil works support, site preparation, pipeline support, rig site support, facility maintenance assistance, logistics coordination, material supply, equipment coordination, manpower support, and general field operations support.

Oil and Gas Support Capabilities

- Civil works support
- Site preparation
- Pipeline support services
- Rig site support

- Facility maintenance support
- Logistics support
- Material supply
- Equipment coordination
- Manpower coordination
- General field operations support

Odernix Nigeria Limited is positioned to support oil and gas project execution by providing dependable manpower coordination, material sourcing, equipment support, logistics assistance, site readiness support, and responsive field operations.

The company's oil and gas-related project experience includes subcontracted support roles, where Odernix Nigeria Limited has supported principal contractors and project stakeholders with practical field execution capacity.

TECHNICAL PROCUREMENT AND SUPPLY

Odernix Nigeria Limited provides technical procurement and supply support for engineering, infrastructure, energy, oil and gas, institutional, and facility-related projects.

The company supports clients by sourcing, coordinating, and supplying project materials, equipment, technical products, and field requirements through reliable procurement channels.

Procurement Support Areas

- Engineering materials
- Construction materials
- Electrical components
- Project equipment
- Facility maintenance materials
- Oil and gas support materials
- Site consumables
- Technical equipment
- OEM-related product sourcing
- Logistics and delivery coordination

Odernix Nigeria Limited's procurement support helps clients improve project readiness, reduce supply gaps, and coordinate critical materials required for field execution.

WATER INFRASTRUCTURE DEVELOPMENT

Odernix Nigeria Limited supports water infrastructure development, including borehole projects and water access improvement initiatives across Nigeria.

The company provides practical support for communities, institutions, public sector stakeholders, private clients, and development projects requiring reliable water infrastructure solutions.

Water Infrastructure Capabilities

- Borehole drilling support
- Water infrastructure design and development
- Installation support
- Water access improvement
- Pumping system support
- Community water projects
- Institutional water supply support
- Maintenance and upgrade support

ENERGY & POWER SOLUTIONS

Through **Odernix Energy Limited**, the company supports renewable energy, power infrastructure, backup power systems, and emerging mobility-related energy solutions.

Odernix Energy Limited focuses on practical energy solutions for institutions, communities, public facilities, commercial properties, estates, and project developers.

Energy Support Areas

- Renewable energy solutions
- Solar power deployment
- Power backup systems
- Energy infrastructure support
- Institutional energy solutions
- Commercial energy support
- EV charging infrastructure support
- Smart mobility energy support
- Sustainable power deployment

This energy arm allows Odernix Nigeria Limited to participate in Nigeria's growing clean energy, power infrastructure, and mobility modernization market while keeping the group's core focus on engineering, infrastructure, and project delivery.

REAL ESTATE & PROPERTY DEVELOPMENT

Through Odernix Homes Limited, the company supports housing, property development, real estate project coordination, facility improvement, and residential infrastructure support.

Odernix Homes Limited complements the group's engineering and infrastructure **capacity by supporting property-related development opportunities.**

Real Estate Support Areas

- Housing development support
- Estate development coordination
- Residential infrastructure development
- Property improvement
- Building support services
- Facility upgrades
- Construction coordination
- Development planning support
- Real estate project support

SELECTED COMPLETED PROJECTS AND PROJECT EXPERIENCE

Odernix Nigeria Limited has executed, participated in, and supported projects across civil engineering, public infrastructure, institutional development, water infrastructure, renewable energy deployment, and oil and gas support services.

The company's project experience demonstrates practical execution capacity, field coordination, stakeholder management, and the ability to support projects across multiple sectors in Nigeria.

Construction of Roads and Culverts

Location: Umuahia, Abia State

Client: Abia State Government

Scope: Road construction, culvert works, drainage support, and associated civil infrastructure works.

Construction of Hospital

Location: Custodial Centre, Umuahia, Abia State

Client: Nigerian Correctional Service

Scope: Construction of healthcare facility infrastructure within a custodial environment.

Construction of Roads and Culverts

Location: Port Harcourt, Rivers State

Client: Project Development Institute

Scope: Road construction, culvert works, drainage support, and civil works execution

Rehabilitation, Renovation and Upgrade of Selected Facilities

Location: Nigeria Police Divisional Headquarters, Durumi, Abuja

Client: Nigeria Police Force

Scope: Rehabilitation, renovation, upgrade works, facility improvement, and institutional infrastructure support.

The Nigeria Police
Divisional HQTRS
Durumi, Abuja.

SECTOR EXPERIENCE

Odernix Nigeria Limited has experience and operational interests across the following sectors:

- Civil engineering
- Public infrastructure
- Institutional infrastructure
- Oil and gas support services
- Technical procurement
- Water infrastructure
- Renewable energy support
- Facility rehabilitation
- Real estate development support
- Community development projects
- Public sector project support
- Private sector infrastructure support

CLIENT AND STAKEHOLDER CATEGORIES

The company is positioned to serve a wide range of clients and stakeholders, including:

- Federal Government agencies
- State governments
- Local government authorities
- Public institutions
- Security agencies
- Correctional institutions
- Educational institutions
- Oil and gas contractors
- Private companies
- Community-based stakeholders
- Commercial property developers
- Real estate investors
- Renewable energy clients
- Infrastructure project developers
- OEMs and technical partners

COMPETITIVE STRENGTHS

- **ISO 9001:2015 Certified Company**

Odernix Nigeria Limited's ISO 9001:2015 certification reflects its commitment to quality management, structured operations, client satisfaction, continual improvement, and compliance with applicable requirements.

- **Multi-Sector Capability**

Odernix Nigeria Limited operates across engineering, infrastructure, oil and gas support, technical procurement, energy solutions, real estate, and project support services.

- **Indigenous Market Knowledge**

The company understands Nigeria's project environment, including public sector processes, field conditions, stakeholder expectations, logistics realities, and execution challenges.

- **Practical Execution Capacity**

Odernix Nigeria Limited combines project coordination, field operations, material sourcing, manpower support, procurement assistance, and technical delivery capacity.

- **Flexible Operating Model**

The company can operate as a direct project contractor, subcontracted support provider, procurement partner, project coordinator, local execution partner, or field support company.

- **Stakeholder Coordination**

Odernix Nigeria Limited is able to work with government agencies, principal contractors, OEMs, consultants, suppliers, communities, and institutional stakeholders.

- **Energy and Infrastructure Alignment**

Through Odernix Energy Limited, the company is positioned to support renewable energy, power infrastructure, and mobility-related energy opportunities within broader infrastructure and development projects.

QUALITY, HEALTH, SAFETY AND ENVIRONMENT COMMITMENT

Odernix Nigeria Limited is committed to maintaining safe, responsible, and quality-driven project execution standards.

As an **ISO 9001:2015 Certified Company**, Odernix Nigeria Limited applies quality management principles that support structured service delivery, client satisfaction, continual improvement, and compliance with applicable project, statutory, and regulatory requirements.

The company recognizes that engineering, infrastructure, construction, energy, oil and gas support, and field operations require proper planning, risk awareness, competent supervision, and responsible site conduct.

QHSE Commitments

- ★ Compliance with project safety requirements
- ★ Responsible site operations
- ★ Proper use of personal protective equipment
- ★ Risk identification and mitigation
- ★ Safe equipment handling
- ★ Environmental responsibility
- ★ Quality workmanship
- ★ Protection of workers and stakeholders

PROJECT DELIVERY APPROACH

Odernix Nigeria Limited prepares execution plans, mobilizes required manpower, coordinates materials, arranges equipment, and establishes project communication lines.

PARTNERSHIPS & COLLABORATION

Odernix Nigeria Limited is open to strategic partnerships with manufacturers, suppliers, OEMs, contractors, consultants, infrastructure developers, energy companies, real estate developers, and investors seeking reliable local participation in Nigeria.

The company can support partners with:

- Local project execution
- Market entry support
- Stakeholder engagement
- Technical procurement
- Infrastructure project support
- Energy project support
- Oil and gas field support
- Project coordination
- Logistics and field operations
- Local content participation

STRATEGIC GROWTH AREAS

Odernix Nigeria Limited is focused on expanding its capacity in sectors critical to Nigeria's infrastructure and economic development.

Key Growth Areas

- Engineering and infrastructure projects
- Oil and gas support services
- Technical procurement
- Public sector facility modernization
- Institutional infrastructure development
- Water infrastructure
- Renewable energy support
- Real estate and property development
- Strategic OEM partnerships
- Local execution partnerships

WHY CHOOSE ODERNIX NIGERIA LTD?

Clients and partners choose Odernix Nigeria Limited because the company offers a practical combination of quality management discipline, local knowledge, project coordination, technical support, procurement capability, and execution readiness.

Key Reasons to Work With Us

- ISO 9001:2015 Certified Company
- Indigenous Nigerian company with local project understanding
- Experience across civil, institutional, water, energy, and support projects
- Flexible capacity for direct execution and subcontracted support
- Strong focus on engineering and infrastructure solutions
- Reliable support for oil and gas-related field operations
- Ability to coordinate manpower, materials, logistics, and equipment
- Technical procurement and supply capability
- Commitment to quality, safety, and stakeholder satisfaction
- Positioned for partnerships with public, private, and international stakeholders

CONCLUSION

Odernix Nigeria Limited is an **ISO 9001:2015 Certified Company** providing integrated engineering, infrastructure, oil and gas support, technical procurement, energy, real estate, and project solutions across Nigeria.

With experience in road and culvert construction, institutional facility development, renovation and rehabilitation works, borehole projects, renewable energy deployment, and oil and gas-related support services, the company is positioned to serve government agencies, private clients, public institutions, principal contractors, OEM partners, and development stakeholders.

Through its Engineering & Infrastructure Division, Odernix Energy Limited, and Odernix Homes Limited, the company continues to build capacity across sectors that support Nigeria's infrastructure, energy, institutional, real estate, and economic development.

Odernix Nigeria Limited remains committed to quality delivery, reliable partnerships, sustainable solutions, and long-term contribution to national development.
